

The Center for Ethics & Advocacy in Healthcare is proud to offer:

# How Do Love and Justice Intersect in a World of Scarce Medical Resources?

A Community Healthcare Ethics Training

A program designed to teach ethical decision making serious health care conflicts. Having such information allows difficult healthcare decisions to evolve into lived experience of human growth.

## Objectives:

- To understand the extraordinary dignity of each person no matter their physical or mental capacity.
- To learn The Center's decision making process used in the community to resolve difficult health care conflicts.
- To explore how justice is an integral part of this decision making process.

Wednesday  
July 7<sup>th</sup>,  
2010
